SPACEPORT AMERICA
The next chapter in space transportation is being written right now in the State of New Mexico. Forward-thinking pioneers developed the world’s first purpose-built commercial spaceport. Virgin Galactic’s Gateway to Space at New Mexico’s Spaceport America was designed and built to cater to space tourism and commerce. Unique geographic benefits, striking iconic design, and the tradition of New Mexico space leadership are coming together to create a new way to travel into space. When it comes to outer space, New Mexico is bringing it down to earth!

HISTORIC MESILLA
Specially trained docents are available to lead groups of ten or more visitors through galleries. Adult tours are designed to be both fun and informative. They are conducted Mondays through Saturdays and last about 90 minutes. Cost is $3 per person when booked at least two weeks in advance. Historic Mesilla is the best known and most visited historic community in Southern New Mexico. Mesilla has a rich and diverse heritage with the integration of Indian, Spanish, Mexican, and Anglo-American cultures. Traditional adobe structures and architectural features retain much of their original charm and have only been modified as necessary. Walking tours, talks and readings and taco making are just a few of the options available to groups visiting Mesilla’s historic plaza.

NEW MEXICO FARM & RANCH HERITAGE MUSEUM
Tours are a fun and exciting way to see the museum and learn about its collections and exhibitions. You’re never too old to learn something new! You will be amazed as New Mexico’s history of farming, ranching and rural life comes to alive through both indoor and outdoor exhibits that include live animals and demonstrations.

WHITE SANDS NATIONAL MONUMENT
Rising from the heart of the Tularosa Basin the glistening white sands of New Mexico are one of the world’s great natural wonders. Dunes have engulfed 275 square miles of desert creating the world’s largest gypsum field, preserved along with the flora and fauna that have adapted to this ever-changing environment.
